

*“Invest and work hard to deliver high quality, creative and successful solutions for our clients. To improve clients profitability and levels of customer service using new media digital technologies”*

more possibilities  
under one tree

*“Bee Global take pride in the fact that we operate primarily on a referral basis. Bee Global strives on building long-term relationships that focus on meeting the overall strategy and business objectives of its clients and partners.”*

## About us

Bee Global is a team of creative design specialists. Our expertise spans more than just in creating compelling designs; we also specialize in end-to-end project management to ensure that the designs we create achieve your desired outcomes. We work with you to evolve your ideas from concept to finished project.

Bee Global specializes in both traditional and non-traditional brand strategy. We have extensive experience influencing both mainstream and “underground” markets. We provide our clients with new and effective ways to communicate to their consumers.

We’re experts at identity design, illustration, Animation web design and development, Video production, apparel and merchandise design, and just about everything brand-related in between. If it’s done digitally, or requires artistic talent, Bee Global does it well. Our team is driven by the creative process. Every piece of work that Bee Global delivers is completely custom, and totally original. We tailor our designs to maximize the potential of our clients' brands. We consider ourselves creative problem solvers with the design skills and the industry intuition to turn client objectives into brand-building, revenue generating solutions.

*At Bee Global we design great experiences!*

*Now recognized as one of the fastest growing and most Advertising Agency offering one stop shop solution for all online offline advertising and marketing needs of its customers and prospects. While we have successfully delivered numerous project in the area of online and offline advertising and marketing*

## Our Vision

---

*“The foundation of our success is our desire to listen. We don't sell an “off the shelf” product, we assemble a dedicated team to develop and deliver valuable custom solutions based on your requirements and your business model.”*

While there's a lot that goes on during our process, the end result can best be summed up by what we ultimately deliver - great creative ideas, robust technical solutions and timely, on-budget delivery. We have a proven track record in the world of interactive professional services.

## Our Mission

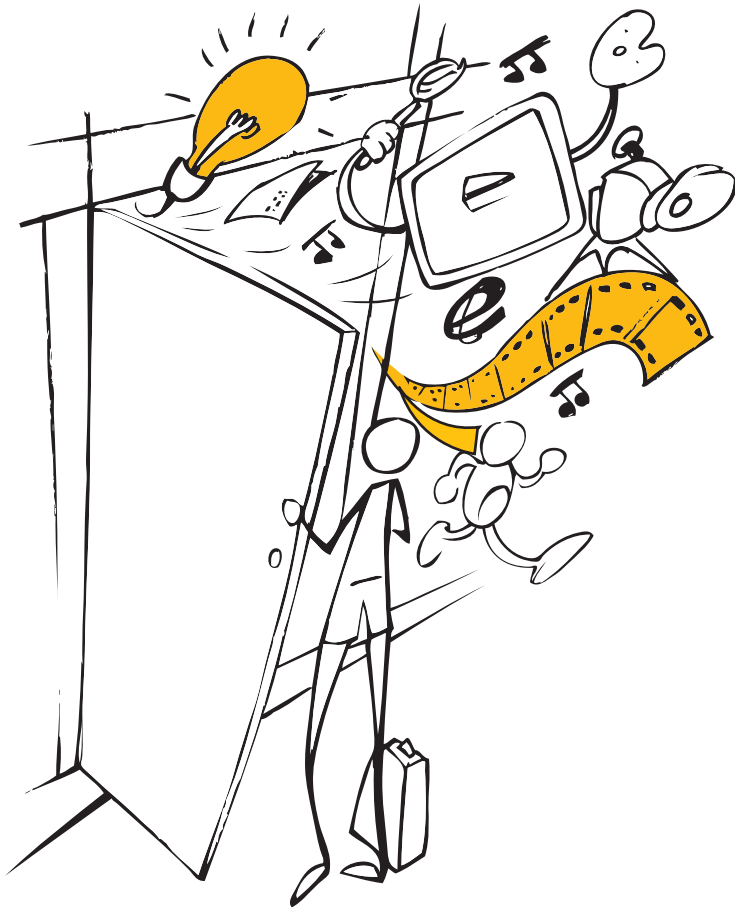

---

Our mission is to serve our clients better and in this respect we are engaged in involving all types of latest technological innovations. With comparable price, skilled professionals and quality service we are steadfast to offer you services that makes you feel proud to work with us again and again.

## Our Team

---

*“Being a great inspirer, Bee Global has a team of professional designers capable of providing design services from traditional media. Our team is proficient in latest cutting edge technologies that enable us to create and furbish state of the art applications that can pursue any type of operation required to perform a task or provide a visitor with adequate features.”*

## One stop shop solution

There's a lot of them and there's a good reason. We believe that the more capabilities we have, the more value we offer. Because we are a one-stop shop, we are able to develop the most effective solution based on an individual client's unique business needs.

We support businesses in the following ways:

- Help companies gain competitive advantages by deploying cutting edge communications tools and technologies
- Increase revenue opportunities by opening up new interactive business channels and markets
- Implement innovative and measurable Internet marketing programs that focus turning qualified visitors into customers
- Decrease costs by implementing process efficiencies that utilize interactive technologies
- Build long-term partnerships with our clients by consistently proving the value behind our strategic recommendations and solutions
- Develop solid Internet strategies and execution plans for deploying strategic eBusiness initiatives
- Utilize the Internet technology to improve company communication and processes both internally with employees and externally with vendors and trading partners

*"So, here in bee global, we provide quality solutions for the various business requirements. We believe that each business is an individual of its own with a character unique to it. Hence we provide customized, we had rather call it designer-made solutions, to various business and their specific requirements."*

## Why Bee Global?

---

### We Value our Clients

Bee Global is a company that works in a flexible environment, adjusting as per our client's requirements. We implement our client's projects and reduce their costs through applying most advanced technologies and efficient development methods. All our work is based on modern technological and quality standards.

### We believe in Quality

Attempting to provide world-class services, we always strive to provide you with quality work and consider "every effort counts". Excellent and consistent quality at low cost is what drives outsourcing business. And we play by the rules of the game.

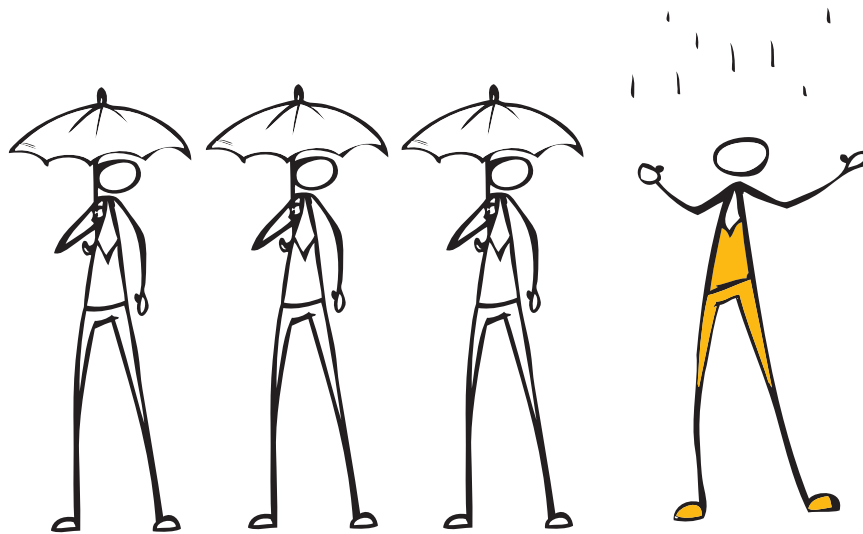

### We value our People

People are the key resources in any service industry. We highly value our people and their performance. Bee Global ensures providing an environment to develop their skills and offers them a rewarding career.

### We support after Sales

We believe that our after sale support is just as important as the performance of our products before sale. That's why we offer "after sales support" facilities, and we are always ready to answer your questions at any possible time

## Video production & Motion Graphics

To deliver high-quality corporate and business professional videos which are clear and effective, the solution is more than just video production...we listen, conduct research, coach, write, design motion graphics & animation, shoot, edit and provide all video services to effectively present yourself. We do Chroma shoot as well.

We can produce a simple and concise video that will meet your needs and visually explain your message in a way that prevents misunderstandings. We use simple analogies, motion graphics and animations to keep your video fun and entertaining. People retain 58 percent more of your message when it is delivered visually. That is why quality videos produced by quality motion graphics companies are so important. We have set our standards high and have an expectation of exceptional work in every project we create and complete.

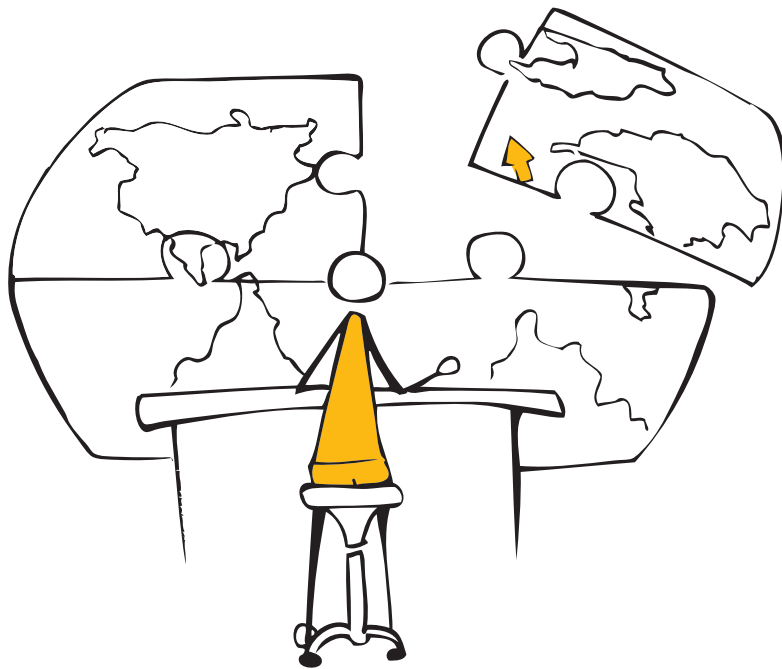

Bee Motion Graphics Pack takes the place of multiple plug-INS, while also offering features that no other plug-in offers. Meet tight production schedules. Create dynamic titles, composites, effects and vector graphics inside your editing system. Take advantage of cutting edge support for OpenGL hardware acceleration, the perfect combination of efficiency and speed. If you need effects for your NLE, build them inside your NLE. No tedious cycle of exports and imports, no media management issues, and no format hassles.
